Washington Papers Enthusiastic Over Miss Voorhees' German-Many Pleasant Features.

Mean Treatment of Ex Sergeant-at-Arms Toompson-The Swaim Court Martial-Notes.

MISS VOORHEES' GERMAN.

A Pleasant and Charming Affair.

Special to the Sentinel. Washington, Feb. 14.-To-day's local papers speak of the german given at Senator Voorhees' residence, last night, with enthusiastic praise. One of them says: "One of the handsomest private germans of the sesson was that of Miss Voorhees, daughter of the Senator from Indiana, last evening, invitations for which had been issued over two weeks ago. Mrs. Voorhees and the wife of her son assisted the young hostess in recelving her guests, and a little before 10 o'clock the german began, led by Lieutenant Lemly and Miss Voorhees. The whole parlor floor of the house was reserved for dancing. Mrs. Voorhees and Mrs. General Sheridan presided over the favor table, and General Sheridan also occupied a seat there, apparently taking an active interest in the distribution of the beautiful favors, which consisted of various useful little trinketsbronze match boxes, pocket-books, satchel pags, tembourines, flags and rosettes. One pleasing i statement rests on a satisfactory basis. feature of the german was the arrangement of a figure, on which every lady and gentleman kept his and her own favor, flags, ribbons and streamers having been provided for as mementoes of the occasion, containing date of party, so that at the beginning every participant had at least one favor. Another commendable feature of the occasion was the serving of supper, on second floor, by sttendants to guests, who were seated at numerous small tables-a happy innovation upon the general custom of rush and scramble by guests in the supper-room, which has so often marred some of the large entertainments this season. In every respect Miss Voorhees' german was a brilliant success, and will long be held in pleasing remembrance by their guests, each of whom, in the last

WASHINGTON, Feb. 14 .- "I never saw Representative Randolph Tucker, of Virginia, in such ill humor as I found him in this afternoon," said the venerable statesman, Judge Poland, of Vermont, to your correspondent. "Mr. Tucker is very much provoked," said Judge Poland, "over the objections of Randall and Townshend to passing the report of the Committee on Judiciary to pay John G. Thompson's expenses in the Hallet-Kilbourn damsge suit. He says it is absolutely outrageous, and I agree with him most heartily. Thompson, while Sergeant-at-Arms of a Democratic House, imprisoned Kilbourn. It was on the peremptory order of the House, and if he had not obeyed would have been impeached. After he refrom his office Kilbourn sued him imprisonment. Three suits followed and three successive judgments were secured—\$160,000, \$60,000 and \$37,000, respectively. The Court scaled it to \$10,000. Thomp-

health falls and he is financially wrecked. He can not live long, and now Democratic economists refuse to pay the damages they have wrought. They won't pay the personal expenses of Thompson, nor the judgment, and I believe with Mr. Tucker that he will die with that judgment hang-Quite a feeling has been worked up over the re-fusal of Randall and Townshend to permit consideration of this mafter. They push it away with appropriations, which have the privilege. Meanwhile Thompson is here upon his own expense, working for a reimbursement of his expenditures. He looks very wan and weak, and it is evident that unless he is paid pretty soon he

on expends his own money in defense. His

Considerable Talk of Counsel Regarding | noon Witnesses -- Adjourned to Tuesday.

WASHINGTON, Feb. 14.- In the Swaim Courtmartial, to-day, testimony was given showing that the stable where some of General Swaim's ferage was delivered was a club stable, where a number of gentlemen, including Swaim, who were acquainted with Bateman, the banker, kept their horses, and that Bateman managed the

The Judge Advocate asked the Court to adjourn till Monday, stating that he had hoped to finish the introduction of testimony to-day, but Bateman, who, he said, is a material witness in the case, has been detained at Havana for several days by the storm. He said the revenue cutter Dix was sent to Havana, by the direction of the Secretary of the Treasury, to bring Bateman to Fampa, but he (the Judge Advocate) had learned that it has been storm-bound at Havana, but is now on the way to Tamps. He said he boped to get the witness here by Mouday. Mr. Boutwell objected to the proposition of the Judge Advocate to delay the proceedings to await the arrival of this witness. He attacked the policy of the prosecution in this case, with regard to the introduction of testimony. General Swaim, he said, had not been furnished with a list of the witnesses who were to be called against him, and when the names of the witnesses were asked for in court the other day the Judge Advocate, in giving them, omitted to give the name of Bateman. He said it is not a storm on the coast of Cuba that detains Batsman, but apprehension of a storm in Washington. He added that if Bateman is to be brought here, the defense would require the presence of a witness from Chicago | nated various sums for the same purpose and the deposition of a witness now lying sick in Athens, O. (General Grosvenor) to controvert his steatements.

The court issued a subpens for Alexander M Hout, M. D., of Chicago, as the witness for the de-lense, and counsel agreed to prepare and forward interrogatories to General Grosvenor. Adjourned until Tuesday.

Steamship Subsidy Proposed. Washington, Feb. 14 .- Senator Frye, to-day introduced the following as an amendment to the Postoffice Appropriation bill, and asked its reference to the Committee on Postoffices and Post-

For transporting mails of the United States for the fiscal year of 1885-1886 between any ports of the United States and any foreign ports, or between ports of the Atlantic and ports of the Pacific through any foreign territory, an amount not exceeding \$600,000 of the net revenues of the United States Postoffice Department on mail matter sent to foreign countries during the fiscal year 1885. The Postmaster General shall contract for said service, after legal advertisement, with the lowest responsible bidder; provided that the rate thereof shill not exceed fifty cents a mile for one trip each way actually traveled between terminal points, and that the mails so contracted for shall be carried on American steamships.

More Dudleyisms.

WASHINGTON, Feb. 14 .- Mr. Clark, Commissioner of Pensions, was before the Committee on the Payment of Pensions, Bounty and Back Pay today, and testified "that while he was acting Commissioner, during October last, Rathbone and Ja-cobs, Special Pension Examiners, were absent from their work and in Ohio without his knowledge or permission; that they had no right to leave their work without his permission. He said, further, these Special Examiners were acting under orders from Colonel Dudiey, who was then at Columbus,

"Sweated" Certificates. WASHINGTON, Feb. 14.-Under the law permitting the Treasury Department to redeem a mutil-

main, sharpers cut certificates in five pieces, and then, by taking one piece from five different certificates, made a sixth one. Of course the doctored notes are made of fragments containing numbers which do not correspond. It was this discovery which exposed the fraud.

National Notes.

WASHINGTON, Feb. 14 .- A delegation of Chippewa Indians from Turtle Mountain reservation, Dakota, called on the Commissioner of Indian Affairs to day, and urged him to enlarge the boundaries of their reservation. The Commissioner replied that they had 150 acres of land for each mas, woman and child of the tribe, which was as much as they could use, and he refused to

entertain their request. A cable message was received at the Navy De-partment to-day from Commander Ludlow, dated Ville, France, reporting that ne will sail in the Quinnebaug on Monday for the Turkish coast, in pursuance of telegraphic orders from the Department, to inquire into the reported indignities to American citizens.

A cable message has been received here announcing the death, in Paris, of B. B. Houch-kiss of Connecticut, the famous gun inventor. Representative Revan will, on Monday, send to President elect Cleveland a petition signed by about 100 Democratic members of the House asking him not to commit himself on the silver question in his inaugural address.

THE FATE OF KHARTOUM.

Statements Concerning Its Fall Rather Contradictory.

LONDON, Feb. 14 - Another dispatch from Korti states that messengers who have arrived there from Khartoum profess ignoronce regarding the fall of Khartoum and the death of General Gordon. The Murdir of Dongola refuses to credit the reports of the capture of Khartoum by the Mahdi and the massacre of General Gordon and the garrison. The authorities here announced this afternoon that they do not believe the messengers'

Notes Regarding the Soudan. London, Feb. 14.-It is now regarded as certain that an attack on Metemach by the British will be made to-morrow. News of the result of the attack is expected at Korti on Tuesday.

Lord Wolseley's disposal of the forces at Gubat under the command of Colonel Butler depends upon the result of to morrow's assault. General Graham departs for Suskim on the 18th. He will be left the fullest option as to the time to be occupied by the expedition in reaching Berber. It is stated, however, that General Graha a intends to make a forced march all the way to Berber from Suakim, If he encounters Osman Digma and defeats him, General Graham believes he can reach Berber within twenty days. It would require thirty days to complete the journey with an army making ordinary time.

The Army and Navy Gazette takes a gloomy Gazette, the troops can neither retreat across the desert nor down the Nile. There they are compelled, from the very necessities of their situation, to intrench themselves where they are, and there hoard their ammunition and live on camel and remain on the defensive until relieved. The Gazette also says that masses of hostile Arabs from Khartoum will soon throw themselves in line between Gubat and Gakdul Wells and capture the latter place, and perhaps even push northward and attack Korti itselt. The Duke of Cannaught requests to be assigned to serve in the Soudan. He will retire in any event from his command at Merut, India, April 1.

The Standard's Correspondent.

LONDON, Feb. 14 .- The Standard this afternoon publishes a dispatch from its correspondent at Korti stating that a messenger had just arrived at Korti. He declares that Kbartoum has not been captured by the Mahdi. The messenger asserts that he left Khartoum six days after Colonel Sir Charles Wilson appeared before the city in the boats sent from Gubat, and when he (the messenger) left, General Gordon still held Khartoum. Government officials do not believe the messenger's story, and state that no official information confirmatory of it has been received.

Hostile Tribes at Tamaio.

SUAKIM, Feb. 14.—Spies report a large assemplage of hostile tribes from the South gathered at Tamaio. The Mahdi's men, the spies say, are perfectly acquainted with the details of the British victories at Abukle and Gubat, but they consider them unimportant compared with the Prophet's success in capturing Khartoum. The story of this success has been spread and magnified everywhere smong the Arabs sympathizing with El Mahdi, and all are apparently great elated.

The Guards Beviewed.

London, Feb. 14. - Earl Northbrook, First Lord of the Admiralty; Childers, Chancelor of the Exchequer, and Harcourt, the Colonial Secretary, attended the council at the War Office this after-

The Duke of Cambridge, Commander in Chief of Her Majesty's Armies, to-day, at Aldershot, reviewed the guards who have been ordered to Egypt. He pronounced them thoroughly efficient.

the Soudan. DYNAMITE NOTES.

Policemen Cole and Cox Receive Numerous Presents.

London, Feb. 14.-Policemen Cole and Cox, who were dangerously wounded while endeavoring to prevent the recent dynamite explosion in Westminster Hall, have received a number of valuable presents. Gladstone has given each of the gallant officers £50 from the Royal Treasury fund. William Harcourt, Home Secretary, given Cole, who pluckily picked up the bundle containing the dynamite and attempted to carry it out, £127; Cox, who went to Cole's assistance, £70. Sir James Ingam, the Magistrate presiding at the Bow Street Police Court, presented each of the wounded officers with £30, and the members of Parliament collected £500 for their benefit. Numerous private individuals do-

More Threatening Letters.

London, Feb. 14.-The authorities have again received letters containing a warning that St. Paul's Cathedral and the Bank of England will be attacked with dynamite. Detectives Roper and Wilson, two of the Government's principle witnesses against Cunningham and Burton, are annoyed by the frequent reception of threats against their lives. Recently these threats have been written on pa-per stamped with a skull and cross bones, and apparently issued by some murderous organization. Detective Roper received a letter advising bim to order his coffin, and assuring him that he would meet his tate before next Saturday.

Innocent Sufferers From Dynamite Out-

London, Feb. 14.—There is a growing movement in the docks of London, and among the builders and other tradesmen, to dispense with the services of Irish laborers. Fifteen thousand Irish were dismissed from buildings in the course of construction in East London, their fellow-workmen, other than of Irish nationality, being un. willing to work beside men whom they regard as possible dynamiters. Reports have been received that a similar movement has started at Manchester, Liverpool, and other provincial cities.

The New Regulations.

London, Feb. 14.-The new regulations for the admission of people to the House of Commons are so stringent as to amount almost to prohibition. Members who ask permission from the Speaker to introduce persons will be held answerable for the conduct of persons so admitted. Strangers are not to be allowed to promenade on the terrace even if e corted by members.

Mr. J. H. Hunt, grocer, northeast corner Fairmount avenue and Ann street, Baltimore. Md . states that he had a severe attack of acute inflammatory rheumatism, and his pains were such he could not walk. After one application of St. Jacobs Oil, the conquerer of pain, he experienced immediate ated bill at its face value if three-fifths of it re I relief and was able to walk as well as ever.

GENERAL FOREIGN NEWS.

Reforms to be introduced in the Judiciary of Ireland.

DUBLIN, Feb. 14.-The London correspondent of the Dublin Freeman's Journal states that the government has decided to reform the present system of the judiciary in Ireland A bill for this purpose, the correspondent says, is already drafted, Among the changes which this measure introduces will be a considerable reduction in the number of Irish Judges and in the number of officials comprising the judical staffs.

The Distribution Bill-Keporters and the

New Bules. LONDON, Feb. 14 - John Morley, a member of Parliament for Newcastle on Tyne, proposes that a special act be passed, allowing the new electoral registration to take effect in autumn next, instead of postponing the operation of the new franchise act until the spring of 1886. In the debate on the Redistribution bill the Irish party will oppose the allotment of two members to Trinity College, Dublin, and will object to the reduction of the con-stituencies of Carlow, Limerick and Drogheds. The members of the press, holding seats in the press gallery, are greatly excited over the Speaker's new regulations abolishing the rule granting press representatives admission to the inner lobby of the House of Commons, and forbidding reporters to go into the leading corridors or use the com-mittee rooms. The reporters will ask the Speaker to rescind the objectionable regulations, the recorters urging that managers of papers will suppress the reports of the debaus unless the re-strictions are modified, as happened in Austria.

Parliamentary Probabilities.

LONDON, Feb. 14.-At the approaching session of Parlisment the political conflict against the present Government will open on the presentation of the Government's demand for a vote of credit of £25,000 on account of the Suskim expedition. It is understood that the Conservatives | will support the request for the new credit, but will accompany the vote with a vote of censure against the Government. An early dissolution and appeal to the people is now expected and discussed. It is believed a majority of the Liberals, Conservatives and Parnellites alike concur in the desire for an early dissolution.

The Council of War.

LONDON, Feb. 14.-At a council of war to-day at the War Office, it was resolved to increase the Indian contingent, to be dispatched to the Soudan for General Wolseley's relief, to 3,500 men, in order to raise the total effective force which General Graham is to have for his Suakim expedition to 11.500 men. The council also reconsidered the previous decision of the War Office declining the colonial offers of military assistance. Both the Earl of Northbrook and the Marquis of Hartington urged the War Office to assent to the requests o embody the colonial contingents in the expedition.

The Royal Soudan Trading Cempany. LONDON, Feb. 14 .- A gigantic trading corporation, to be called the Royal Soudan Trading Company, is being formed in London and Alexandria upon the same lines as those upon which were conducted the East India Company. If the corporation succeeds in obtaining the charter it has aiready applied for, it will claim as one of the privileges the right to build a railroad between Berber and Suakim.

Lorne's Letter.

LONDON, Feb. 14 .- The Marquis of Lorne, ex-Governor General of Canada, writes to the Times to advise the acceptance of the proffered services of Canadian regiments in the Soudan campaign, He believes they will prove as valuable coadjutors as the Voyageurs, and declares it will be but an act of justice to give them the right to prove their

Rumored Attack of Kassala.

LONDON, Feb. 14.-The report that El Mahdi's troops were marching to attack Kassala, has led to a renewal of the negotiations with Italy for the dispatch of an Italian expedition from Massowah for the relief of that garrison.

THE SHORT-PHELAN CASE.

An Examination Before Justice Patterson at the Tombs-The Case Adjourned to Next Saturday.

New York, Feb. 14 .- The examination in the Short-Phelan case began to-day by Justice Patterson at the Tombs. The court was filled by spectators. Captain Phelan's arm still hung in a sling. The Police Sergeant took charge of the Captain's revolver, which Phelan carried in his pocket. Short came in later accompanied by his counsel. He looked a triffe pale. The prosecution called Phelan to the witness stand. After being sworn, he said in respon e to the questions of his counsel: "My name is Thomas Phelan and I live in Kansas City. On the 9th of January I was sitting in O'Donovan Rossa's office with my left side to the table and my back to the door. Richard Short came in with a long knife in his hand and said, "Now I have got you, and then he plunged the knife into my breast. He then pulled it out and stuck it into my neck. I tried to get away from him by running around the table, but he managed to strike me three times. Two men, who were in the room, ran out and tried to escape. I got out at length and made my way to the street, I bacame acquainted with Short last July."
On cross examination Phelan said: "I have resided in Kansas City twenty eight years, with the

exception of the time I was in the army, and the three years in lived in Washington I took a three-months trip abroad in 1883. I visited Ire-land England and Wales. I landed at Queens-town, and from there I went to Cork. I did not meet any person I knew at either of these places. I never was in the employ of the British Government. I never made the acquaintance of any government officers while abroad. I had a conversation with a British detective, but I didn't know he was a British detective until after he left my hotel.

At this point the counsel for the prosecution objected to the scope of the cross examination, and suggested it be confined only to the assault on Phelan. The Court decided the examination must be confined to the evidence of the defense of witness. The cross-examination continued. He said, I came to New York last January for two purposes, one to visit my sister, Mrs. Levy, at Northampton, Mass, and to explain to certain persons an article in the "Kansas City Journal," I had a talk with Kearney about the article, and my purpose in coming here. He had told me the boys down to the office were angry with me for talking to reporters in the way the article represented 1 did. He also said something about an article in O'Donovan Rossa's paper. I told him no man could publish a lie without my bringing him to an account for it. When I went down to Rossa's office I had my little boy's revolver with me. I placed it in my over-ecat pocket. I don't know whether it was loaded or not. I have been arrested twice in Kansas City-once for tearing down, on St. Patrick's Day, a picture in a store representing Irishmen as apes, and the second time for carr, ing concealed weapons. I was charged once with stabbing a man named Trout Norton. not boast about this affair or say I would do it again if anybody insulted

me. The article in the Kansas City Journal did not call me an informer; it said I gave the information that dynamite was concessed in the Queen. I gave that information, and would do it wen'n under similar circumstances. It is true to a certain extent that an English detective got into my confidence I told him my name and where I came from and where I was going. The reason I used Kearney's name and told what he had said

and done was because he openly boasted of what he had done in England. The defense then asked an adjournment until Saturday next and the request was granted. Captain Phelan afterward denounced the adjournment as unjust. He said it cost him loss of time and money.

Voorhees and Cobb's Visit to Cleveland-An Albany Rumor.

ALBANY, N. Y, Feb. 14.-President-elect Cleveland to day received United States Senator Daniel W. Voorhees, of Indiana, and Representative T. R. Cobb, of Indiana, who urged the claims of ex-Senator Joseph E. McDonald, of Indiana, for a place in the Cabinet. They represented the movement for McDonald was an earnest and spontaneous one that had taken hold of a large element of the Democratic party all over the country, which must, in some way, be satisfied. They were well pleased with Mr. Cleveland, and their visit was in every way enjoyable.

Gossip here runs entirely on the subject of Daniel W. Manning for Secretary of the Treasury.

The Illinois Senatorship. CHICAGO, Feb. 14.-The Chicago Dally News' Springfield, Ill., special says: "The Senate and House met in joint session at noon and the roll was called for a vote for United States Senator. Excited Over a Farmer's Discovery of Oil, PARKERSBURG, Feb. 14 .- The quiet and staid people of this borough and vicinity have been thrown into a fever of excitement by the report that oil has been struck on the farm of J. G. Ellis, in Sadsbury Township. Mr. [Ellis very recently bought the property from the Blackemore estate. One day last week he found a substance closely resembling oil ooxing from the ground and covering the surface of the small stream in his place. He took a quantity of the oily matter to Philadelphia and had an oil expert examine the sample. The result was that Mr. Enis was informed that he had a very excellent quality of oil. Be then placed himself in communication with the Tidewater Oil Company, who sent experts to the farm, and, after a careful examination. made a proposition to lesse the land for the term of ten years. The offer was promptly accepted by Mr. Ellis. The same company have leased lands from Andrew Dick, Hon. R. E. Monaghan, ex-Cierk of Courts Edward Paist, E. Blackburn, Rooert Owen and John Patrick, the entire leased tract being about 1,200 acres.

Experts say that the geological condition of the locality is much the same as that of the noted are to be sunk, and some \$15,000 will be expended in developing the new oil region. The lands are in Sadsbury and West Sadsbury, along the line of the Lancaster pike, and but a short distance from the Pennsylvania Railroad. Some six miles away, separated from the oil lands, are the pipes of the Tidewater and Standard Oil Companies, but the experts say that even if there had been a burst in the pipes it could not have produced the lurge flow of oil developed on the farm of Mr. Ellis alone.
